### EXPERIENCE

#### Software Engineer

February 2023 - Present

Navtech

Hyderabad, Telangana

- **Front-End Development:**

- Leveraged technologies such as **Angular, Next.js and React.js** to craft dynamic and immersive user interfaces that meet modern standards.
- Spearheaded the development of APIs using **Node.js and Express.js** and seamlessly integrated frontend functionalities with backend systems, ensuring smooth data communication and flow.
- Actively engaged in agile development methodologies, contributing to sprint planning, daily stand-ups, and consistently meeting project deadlines.
- Collaborated with team members to identify and address challenges, fostering a collaborative and productive working environment.
- Worked on 4 major projects, focusing on creating visually appealing and user-friendly interfaces.
- Collaborated with cross-functional teams to translate business requirements into scalable and responsive web applications.

### PERSONAL PROJECTS

- **UANDI: MEAN Stack**

- An online marketplace facilitating the provision of various services such as AC servicing and plumbing. Key functionalities include **JWT Authentication**, seamless **Payment Gateway Integration**, **Google OAuth** for user authentication, and **NodeMailer** for communication.

- **Medicare: Spring Boot, Angular**

- A pharmaceutical e-commerce platform designed for ordering medicines online. Core features encompass **JWT Authentication** for secure user access, **Payment Gateway Integration** for smooth transactions, ensuring a seamless user experience.

### EDUCATION

- **Bachelor of Computer Application - BCA, University of Lucknow**

2019-2022

Computer Science: CGPA - 6.8

- **Intermediate, Jagran Public School, Lucknow**

2018-2019

Jagran Public School: 76.8%

### CERTIFICATION

- [Java Full Stack Development](#) - Simplilearn

January 2023

- [React.js](#) - Simplilearn

December 2022
